

19th international CAN Conference 2027

Call for papers

“Evangelische Akademie” in Tutzing (Germany), March 3 to 5, 2027

The iCC program committee, chaired by Holger Zeltwanger (CiA Managing Director), is calling for papers. Topics of the 19th international CAN Conference (the term CAN includes CAN CC, CAN FD, and CAN XL) are:

- CAN lower-layer implementations
- CAN device design
- CAN network design
- CAN diagnostics
- CAN higher-layer protocols
- CAN-related research studies
- CAN in automotive applications
- CAN in industrial applications
- CAN in general-purpose applications
- Other CAN-related topics

Conference language is English.

Speakers pay no, co-speakers a reduced participation fee for conference participation. In case your paper is accepted by the iCC program committee, submission of a full paper is not mandatory, but highly appreciated. All presentations and presenters are going to be recorded. By attending iCC 2027, you agree that the organizer is allowed to take pictures and recordings and you authorize the distribution of the pictures, videos, or recordings via the internet or other communication channels without compensation.

We kindly ask you to submit the completed application form, along with your abstract (maximum 200 words in English), to the CiA office via email to conferences@can-cia.org by **September 15, 2026**.

Yes, I want to submit a paper to the 19th international CAN Conference.

(Title of paper)
