

CiA Member Day and General Assembly **2023-03-28**

CiA invites its members to the CiA Member Day. At that day, CiA fellows discuss current CAN-related developments and challenges. Among others, it is a good opportunity to re-establish personal contacts to further CAN experts. The CiA Member Day starts with technical-oriented presentations. Embedded into the CiA Member Day is the **CiA General Assembly 2023**, at the end of the event.
