**CANopen<sup>®</sup> vendor-ID**

The worldwide unique CANOpen vendor-ID shall be implemented in the object 1018<sub>h</sub> of every device compliant with CiA 301 (version 4.01 and higher) or with CiA 1301 (version 1.0.0 and higher). It is a numeric value of type UNSIGNED32 and consists of a unique number for each registered company and optionally for each department of that company. If you choose to add a department name, please pick a specific name, i.e., "Germany", "Medical", etc. Names as "Development", "Research" or "Manufacturing" provide no additional information about the device manufacturer and might not be accepted by CiA e.V.

Both numbers are registered by CiA e.V. and causes an administrative fee of **1500.- EURO + VAT**. This service is free of charge for CiA members.
